

Healing Testimonies

From the Top of Your Head to the Bottom of Your Toes¹

When I was a child, our church would routinely invite people to come up for prayer. Often, I would hear someone pray loudly, “Be healed from the top of your head to the tip of your toes,” which was a very dramatic way of saying, “Be completely healed.”

However, my husband did have a problem with his toes. For several years he had to wear steel toed boots for work. Over time, he developed toenail fungus. (Yes, I have permission to share this.) For forty long years, he battled with this, but they got uglier every year. He was so ashamed of his feet, he almost never took his socks off, even when wearing sandals.

He tried EVERYTHING from over the counter “cures,” to prescription drugs which came with warnings about possible liver damage, to laser treatments. His toenails would not respond and got worse.

Remember the woman with the “issue of blood.” That was very embarrassing, too. It says that she spent all her money on doctors, but she only grew worse.

Thankfully, David’s condition wasn’t painful, so it was easy to ignore, but it was always in the back of his mind. Of course, he prayed about this problem now and then, but it persisted.

Last year, 2025, our fellowship declared a year of Jubilee. We agreed together that we would no longer accept the status quo in different areas of our lives that seemed resistant to prayer. We would be free in our health, our finances, and our relationships. We were all excited to see what God would do.

One day, about four months into the year, David got up, looked at his feet and was shocked by what he saw. His toenails were 100% normal. They were beautiful without a trace of fungus and no longer deformed. He hadn’t done anything! This was not a gradual healing. It seemed to have happened overnight.

Today, he is excited to proclaim this miracle God did for him. He relishes wearing sandals with no socks. More importantly, several people

in our fellowship have taken courage to believe for their own “impossible” situations. Glory to God.

Jubilee
NOW!
