

Healing Testimonies

Oh, My Aching Back!

A few years ago, we attended a Christian conference. At the end of one of the sessions, the speaker invited people up for prayer. Instead of the minister personally praying for people, there was a prayer team lined up front. The minister asked anyone who had pain in their back to come forward.

At that moment, I remembered that my husband, David, had been experiencing pain in his back for quite some time. X-rays done by a chiropractor showed that his discs were compressed. So, I encouraged him to go up for prayer.

Since he wasn't having pain at the moment, he hesitated. I nearly pushed him out of his chair to go up for prayer, and he finally did. When he returned to his seat, I asked him about it. He said, "I believe I am healed," but since he didn't have any pain, he couldn't physically tell.

For many days, he had no back pain, but one day after he went running, his back hurt again. He felt discouraged because he had great hopes that he would be better.

Since it had been quite some time since he'd seen the chiropractor and he didn't remember his name, he made an appointment with a new chiropractor who took new X-rays.

When the doctor brought them out to show David, he said, "Look here. You have the back of a 30-year-old." (David was about 50 then.)

David looked at the films, and sure enough, each disc was in perfect condition.

While driving home, he felt some disappointment because he'd hoped the chiropractor could help him with the pain, but then it hit him! He'd been miraculously healed! His compressed discs were perfectly normal.

Glory to God!

Luke 11:9

"So I say to you, ask, and it will be given to you; seek, and you will find; knock, and it will be opened to you.
